SEED CLEANING PLANT

Great interest is said to be taken by the United States Department of Agriculture in the new Alberta Government co-operative seed grain marketing plant, and the Government cleaning plant which is being installed by the Department of Agriculture under the supervision of W. J. Steven, crops commissioner. Mr. Steven has received a letter from the federal grain supervision bureau of the U.S. Department, asking for particulars of the plan. The scheme is proving of great interest to the farmers of the province. Over 4000 bushels of seed grain have already been shipped to the plant, and much more is expected. The cleaning plant is about to be installed, and will be of modern type. It is emphasized by officials of the department, that it is the purpose of the department only to handle the surplus seed grain that cannot be handled by the farmers themselves.

A SUCCESSFUL EXPERIMENT

Another triumph for co-operative marketing was registered last week when 85 farmers near Crav and Provost combined in a pool to ship a carload of live poultry by freight to the poultry marketing plant at Edmonton. They combined 108 crates of birds, or approximately 2600 head, the weight being 8341 pounds. The freight bill on the entire car was \$111.90. If this stuff had been shipped in the ordinary way by express, by individual farmers, the bill would have been \$315.05. Thus a saving of \$203.15 was effected, or about one cent per pound on the poultry. The poultry was shipped in open live stock car in regular poultry crates and arrived in excellent condition. The poultry was handled by the poultry marketing service of the Provincial Government with the Dominion Government poultry officials co-operating.

HEAVY WHEAT SHIPMENTS

During October 2,381 cars of wheat, totalling 3,095,300 bushels, passed through Calgary. Alberta is shipping more wheat through Calgary at present than at any other period in the history of agriculture in this province, according to figures of car inspections compiled by George Hill, Dominion grain inspector.

October has eclipsed all records of wheat inspections in the same month in other years, although the month is not completed when these figures were compiled. Saturday, October 21, saw the largest shipment of wheat passed through Calgary that has ever been handled there in one day, when 212 cars were inspected, making 275,600 bushels, estimated at the rate of 1300 bushels a car. In October, 1921, only 675 cars, or 854,100 bushels of wheat were inspected. In other years October's figures were considerably larger than 1921, but none of them approached the mark that has been made up to the present this year.

PROVINCIAL SEED FAIR

Arrangements are now being made for the annual Provincial Seed Fair and a convention of seed growers of the Province to be held during the U.F.A. convention in Edmonton the week of January 16 to 20. Entries for this seed fair are to be in not later than January 10. A new feature this year will be the boys and girls section, in

won first or second prizes in the school fairs during this year. Prizes will be offered to these in wheat, oats, rye, barley, sunflowers, corn and alfalfa. Prizes will also be offered for collections of novus seed. The fair will be open not over 17 years of age, the samples to be properly mounted and named. There will also be prizes for essays of 300 words, on weed control and eradication. In addition to this there will be a grain judging competition open to teams of three each of the second year boys in the agricultural schools. On the last day of the fair there will be an auction sale of seed grain sold off sample.

At the seed fair the formation of a provincial seed growers' organization for the handling of registered seed will be considered. A program is also being arranged of addresses on all phases of agriculture, chiefly on field husbandry and an effort is being made to secure authorities on seed grain from outside the province.

The exhibition of seed will be open during the week to the public, and the judging will be done before the show is opened. The department has reserved the right to retain for exhibition purposes, all premium grains on which first, second and third prizes have been won, on the understanding that the samples will bear the name of the exhibitor and the score card.

Up to October 30th a total of 3,717 threshing machines had been registered in Alberta, a greater number than has been registered in any previous year. Owners of machines who have not yet registered with the department of agriculture should do so at once.

Several districts in Alberta report a surplus of potatoes. The latest is from Vauxhall, where the farmers have raised a considerable surplus this year.

"Trade at Home" Campaign

NEW ONE BORN EVERY MINUTE

MAIL ORDER MAN NEED NOT WORRY ABOUT KEEPING HIS OLD CUSTOMERS.

HIS FIELD NOT RESTRICTED.

"COPYRIGHT"

It has been said that there is a sucker born every minute. If this be true, there are 1,440 potential customers of the mail order houses ushered into the world every 24 hours and the number reaches at the time of \$25,000,000 a year.

Of course as Mark Twain remarked regarding reports of his death, these figures may be exaggerated, but they serve to illustrate the fact that the mail order houses of the big cities always have new fields to exploit and are not hampered in their dealings by the necessity of pleasing all their old customers. If the mail-order buyer discovers that he has been stung and registers a violent kick, it means nothing in the young life of the mail-order man. Why should he worry as long as there are a large number of other persons in Canada to whom he may make his alluring appeal?

LOCAL MERCHANTS' FIELD LIMITED

Compare the position of the mail-order man with that of the retail merchant in the small city or town. The retail merchant has a certain limited territory from which he must draw his trade. All his business must be done day after day and year after year among the same people. The buyers to he can appeal for business number only a few thousand at the most and in some cases a few hundred. Unless he can make his customers his friends and bring them back to his store again, he cannot continue in business. The result is that he looks beyond the single sale which he may be making at the time. It is to his interest to please

everyone of his customers. If it will profit him nothing him nothing to make a big profit of a customer on one sale if that customer is not satisfied with his purchase an drufakes to come back to his store again.

From which man can the buyer expect to get the best values, the best service and the best prices in proportion to the quality of the goods sold? From the man who must please him and give him his money's worth in order to remain in business, or from the man who figures that he may never hear from the buyer again and that it will make no great difference whether he pleases him or not?

GETS IT WHILE HE CAN

The idea upon which the mail order man works is to get the money while the getting is good. If the customer is satisfied with the goods which he receives all will and good. The mail order man knows that the customer is the kind of a man or woman who likes to take a chance or he wouldn't have sent in his order in the first place. Therefore he may figure that the customer is likely to take a second chance if the first does not turn out to his liking. If the customer has enough spirit to make a kick, the trained correspondents in charge of the complaint department will be able to pacify him. If they are not it doesn't matter much anyway for there are hundreds of thousands of others who may be caught with the same bait—there is one born every minute you know.

DISTRICT AND LOCAL

Christmas will be here in just 20 days.

The twelve-horse outfit is becoming a back number.

Has anyone seen Glen Jones's 54 horse outfit?

Are you advertising your Xmas goods?

The Union Church Circle will hold their annual Xmas sale on Dec. 2nd.

The young people are getting some excellent skating on the "Boiling", slough east of town.

The wonderful weather continues and it looks as though we may as well arrange for Xmas baseball.

The Union Church Circle will meet Thursday afternoon, Nov. 15th, at the home of Mrs. A. W. Bowles.

Russel Mathews has been quite ill and will likely remain in Calgary this winter for special care and treatment.

The Women's Auxiliary of St. Andrew's church will meet at the home of Mrs. Cuthbert on Thursday at 3 pm.

A Christmas box that will be useful every week in the year can be had by sending \$2 to the Call and the address of your friend.

Dr. Bowles and Dr. Wright, dentist, are now occupying offices in the Post Office Block, where they have very neat and commodious quarters.

On December 1st the W. A. of St. Andrew's church will have a sale of work and goods at the G. W. V. A. Hall, commencing at 7 o'clock.

Mrs. G. T. Jones, who has been ailing for sometime past, was successfully operated on in Calgary Monday, and her many friends will be pleased to learn is improving nicely.

Stuart lake is now in great shape for skating, and some talk of building an ice boat is heard. If the present weather holds this lake could hardly be beat for ice boating.

Glen House has left with a party to hunt for game in the Rocky Mountains west of Olds. Slim will depart with his bobcat team soon as Glen reports a full load ready.

No, it does not look very good for the ducks to have a covered curling rink and the kiddies none at all. Let's be generous and do something for the little tots—they know how to enjoy themselves best.

The ladies of the Women's Missionary Society are holding a Bazaar offering meeting on Tuesday evening 21st November, at 8 o'clock at the home of Mrs. Donald Hinchey at Alex. Avery Society are holding Bazaar offering meeting at the meeting and a musical program, also being arranged. Lunch will be served. All interested are cordially invited.

There is only one way to grieve and that is to hammer your misfortune and your business to pieces, only so thoroughly into people's heads that if they walk in their sleep they will constantly turn their steps to wards your store. THE COMMUNITY THEATRE AT NARAMATA

THE British people are theatre-loving folk, and have to their credit traditions of the theatre that are greater, and of more world importance than any other country. There is no doubt, the reason why Canadians today take so much interest in theatricals, and particularly those of the amateur variety. Being a small population living along a great coast, it is but natural that Canada's professional stage should be entirely duplicated by that of the United States but it is gratifying to find that there has come into being an important theatrical movement in this country which is distinct from that of the regular professional stage. Under existing conditions it is only thus that our theatre can be developed as a Canadian stage with a literature of its own. Most of the group of Community Players, Toronto has to Hart House Theatre, and Winnipeg, Vancouver and Victoria, as well as many other Canadian cities, have their theatrical organizations, all of which are more worthy of note than the amateur theatre which has been established in the fronting village of Naramata in the Okanagan Valley.

It was built by Carroll Atkins on his small farm ranch. For years he and Mrs. Atkins had been interested in the theatre. One of his own plays was produced three years ago in Richmond, and was because there was no native theatre where Canadian plays could be tried out that the little theatre of Naramata came to be built.

The neighbourhood of Naramata had actors enough. Mr. and Mrs. Carroll Atkins were of the sort that could make actors out of anybody who had a love for that sort of thing—but the theatre was another matter. It had to be built, but before that it had to be designed, and not knowing so much about what regular theatres had in them, at about that time they thought they should have a community theatre that in completeness of equipment and simplicity of arrangement, not suffer in comparison with any theatre of the kind in the country, but which presents novel and interesting features.

As the theatre is built in the quarters (quarters of the fruit ranch packing house). The stage is on the floor level, and the benches rise gradually on shallow steps, but it is in this fact that the theatre is most remarkable. The back wall is a glass-plastered dome with a portable prepared surface on which a splendid array of vividly colored lights can create any scene desired. There is no space to describe the scenic effects, it is enough to say they were simply built and amazingly successful.

The actors are the fruit pickers of the neighbourhood, reinforced by a number of enthusiasts from various parts of Canada who have gone to Naramata to study stagecraft. It is Mr. Atkins' hope that this number will grow, and that his splendid little theatre will have an opportunity of giving a first production to new Canadian plays by Canadian authors.

The theatre has already become the most important place in the country, and will continue to make life more worth the living in beautiful Naramata.

W. A. wish to thank the people of the district for their liberal patronage. The costumes were excellent and the sight of the different colors and designs about the floor was absolutely dazzling. The prize-winners were published in our last issue. Mr. W. Stuck kindly donated the gentleman's first prize.
